

The Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear The Federal Communications Commission,

I absolutely do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal would make my current service unaffordable for my self and my family.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is grossly unfair!

I only use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that large businesses can pay less than their portion of the costs. I urge you to emphatically reject the proposal to move the USF collection system to an unfair flat-fee.

Keep the USF Fair!

Sincerely,

Doug Phillips
